1

1*

Jeżeli głębokość listwy przyszybowej (X) jest mniejsza niż 17 mm stosujemy podkładki dystansowe.

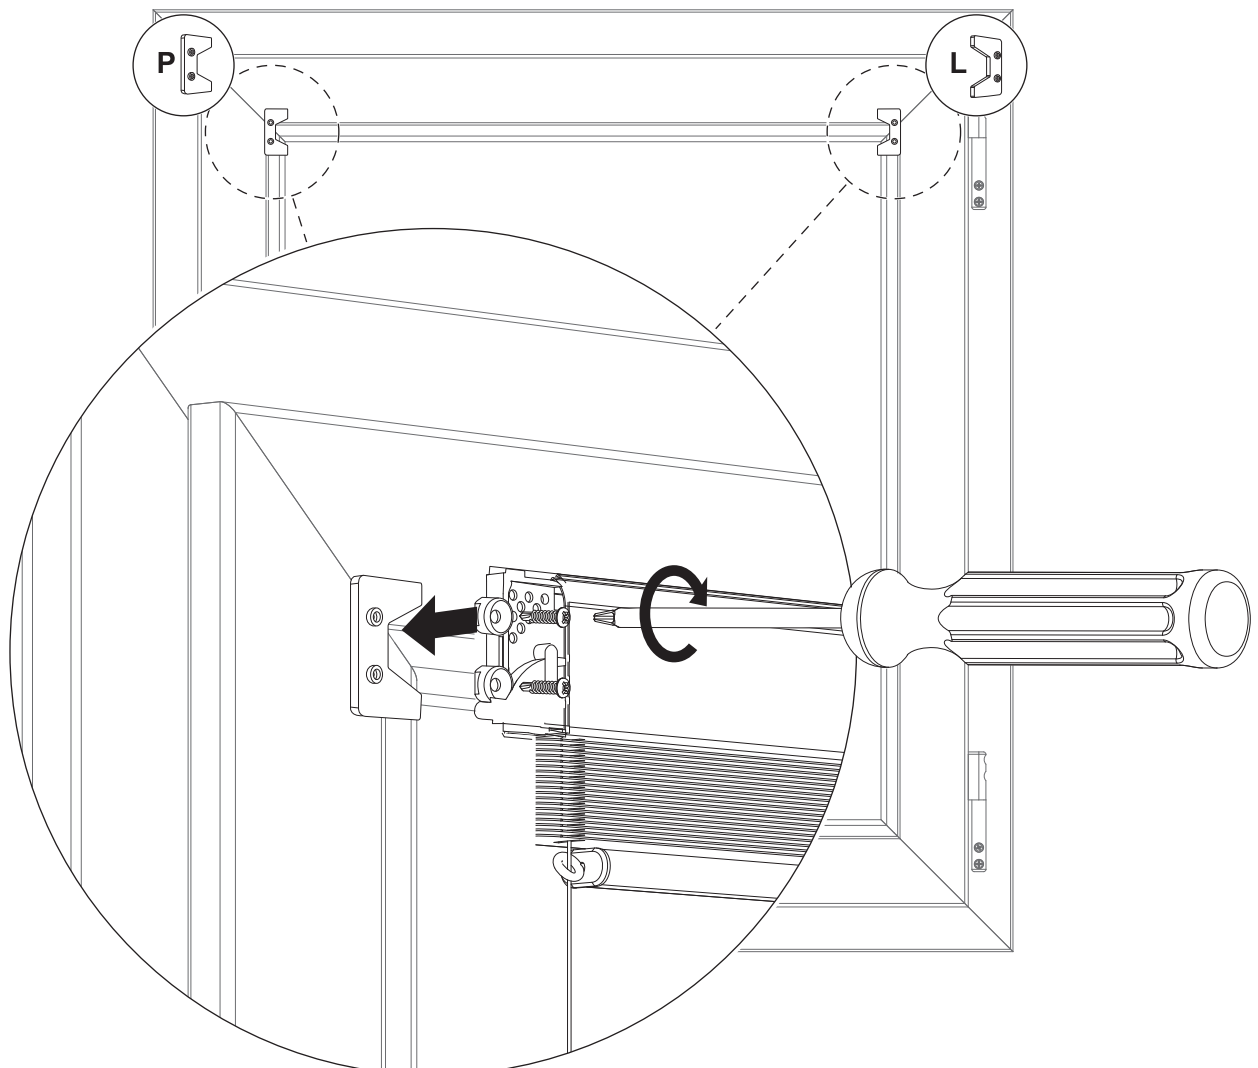

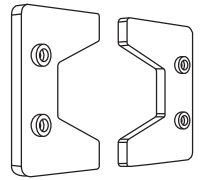

If the depth of a window beading (X) is less than 17mm, use provided spacers.

Si la profondeur de la parclose (X) est inférieure à 17 mm, nous utilisons des entretoises.

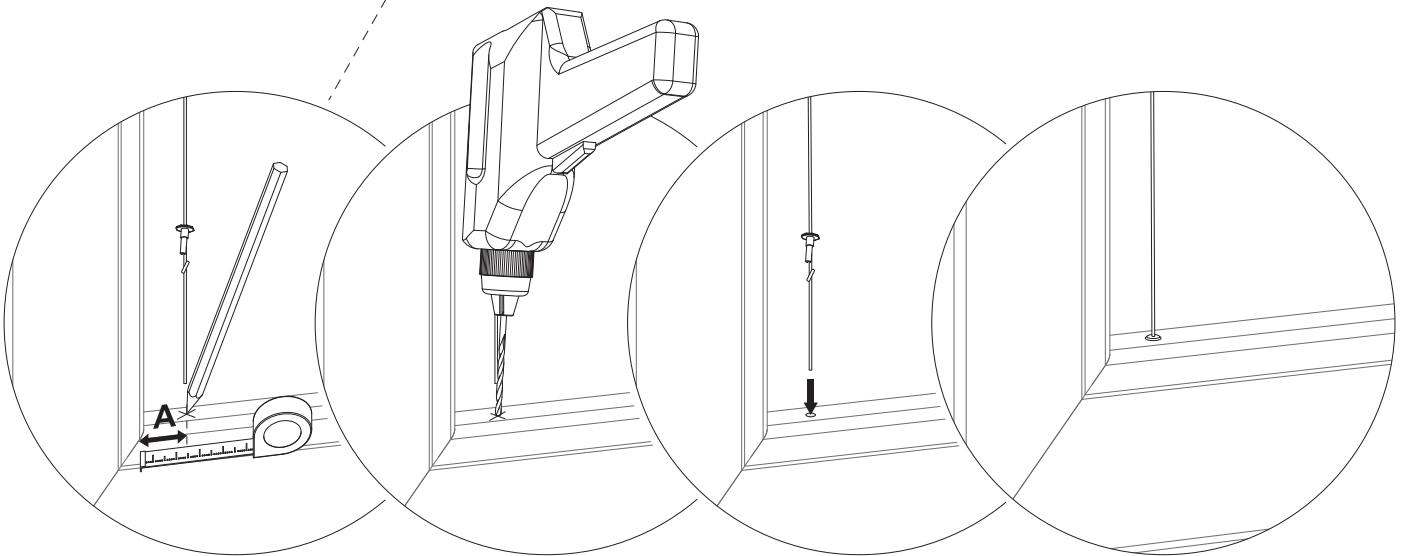

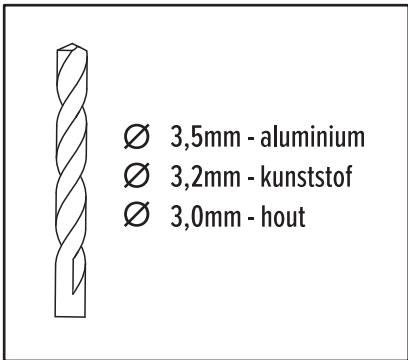

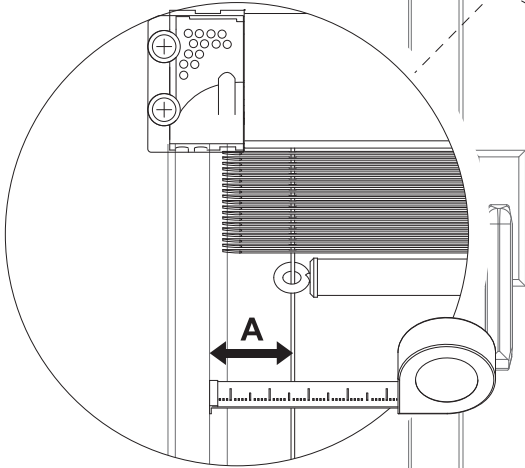

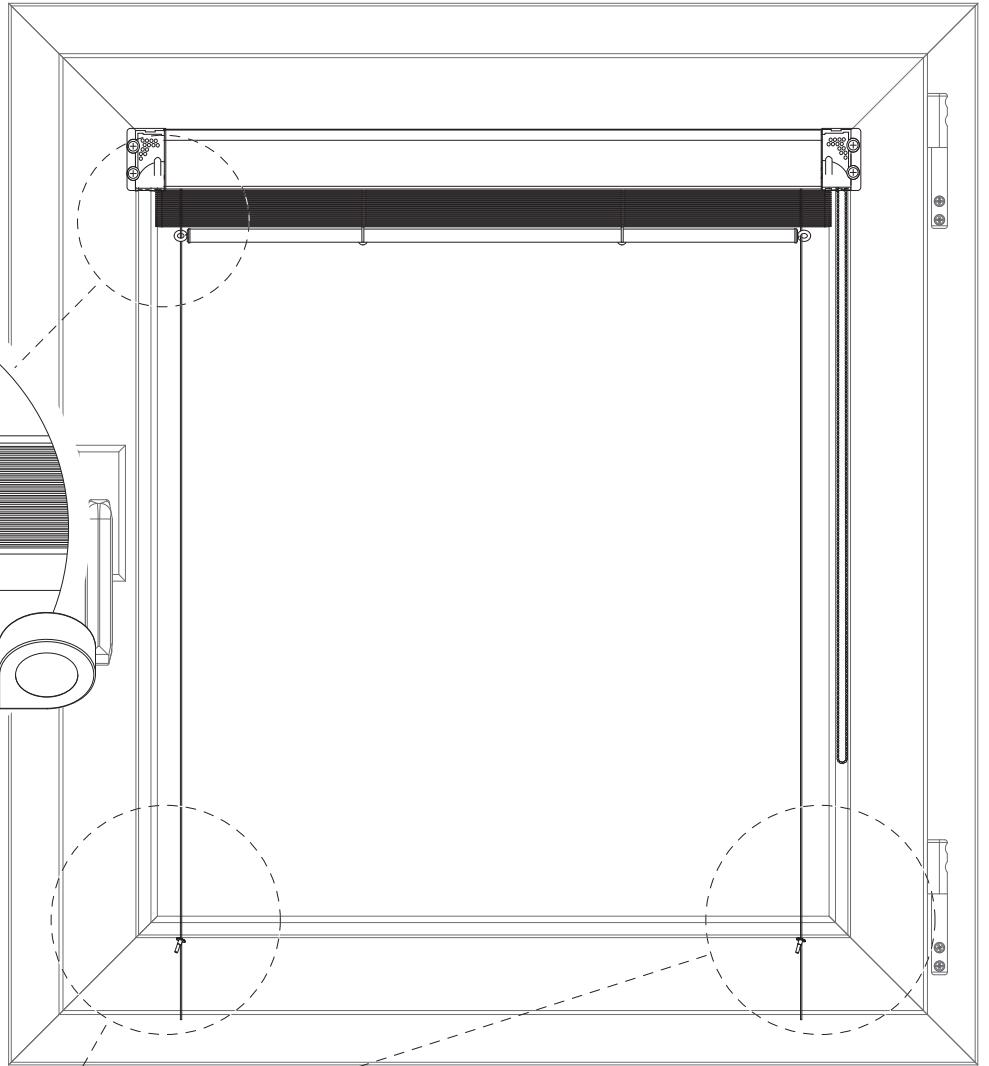

Si la profundidad del junquillo (X) es inferior a 17mm entonces usamos láminas separadoras.

Als de glaslat diepte (X) kleiner is dan 17 mm, gebruik afstandhouders.

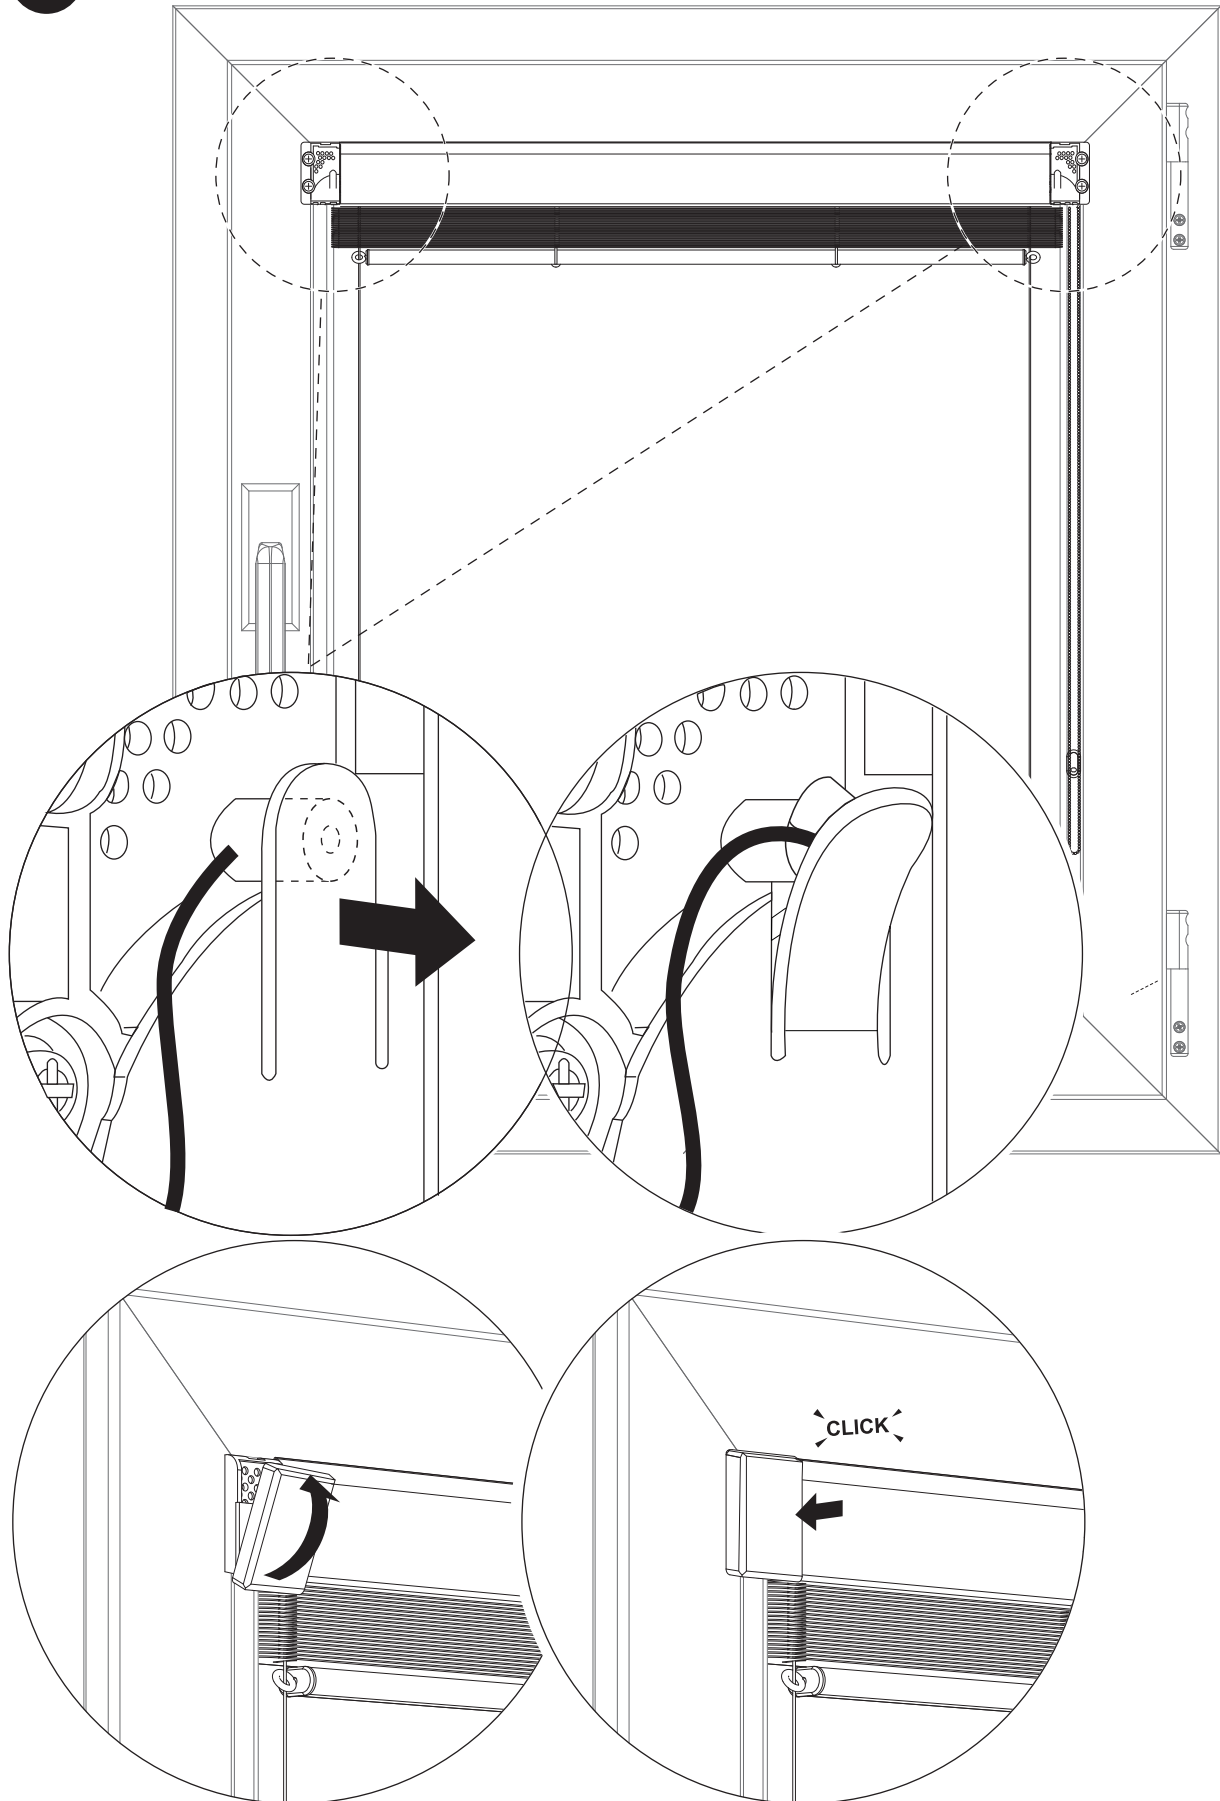

Se la profondità del fermavetro (X) è inferiore a 17 mm, utilizzare i distanziali
